### NEW YORK BOND MARKET.

CHICAGO GRAIN MARKET.

Chicago, May 24.—Those who are well posted on present crop conditions advance the opinion that there will be around 650,000,000 bushels of wheat threshed in the Northwest and Southwest. According to these figures, coupled with an estimated carry over of 80,000,000 bushels, there will be more than ecough wheat to go around. Crop reports from the spring wheat country are quite optimistic. Indications point to the movement of new wheat at an earlier date than usual this year.

One of the wildest rumors ever set affoat on the Board of Trade was in evidence about an hour before the close today. It was said that in a battle on the seas the Germans had lost forty-eight ships, and the allies eight ships. There was heavy selling of wheat and corn on it and there were price recessions of 5 to 1% cents for the former and 6ka 8k cents for the latter grain. Outs held up better than the other grains, closing at declines of only 1% to 3 cents.

There was no absence of buying power in both the core and outs markets, but cash corn held fairly well considering the bearish sentiment in eridence. The provision market closed irregular and unsettled. Furnished by W. B. Hibbs & Co. WHEAT... Onen. rligh. Low. Close.
